**Ph# 419-698-7147 (7169,7145)**

## Objective/Rules:

\*\*\*All rules must be completed in the order specified\*\*\*

Phase #1- "The Work Shop" - Your two elves are busy in Santa's work shop finishing up the toys for delivery!! The elves will FIRST load 6 presents (3 presents each) into Santa's bag and then put bag in Sleigh. SECOND, they will each ring a set of sleigh bells letting Santa know he can board the sleigh. THIRD, they will round up the reindeer from their stalls(each elf gets one reindeer) and harness them to the sleigh. FOURTH, elves will each ring sleigh bells again and send Santa on his way! Elves will then return to their starting areas and await Santa's return.

Phase #2- "The Delivery Dash" - The two reindeer will dash Santa along the course en route to the Christmas Tree. All presents much arrive safely! If a present falls off of the sleigh the entire team must stop until it is reloaded. Once at the tree, and having come to a complete stop in a designated area Santa can start delivery. Santa will FIRST, while keeping bag in the sleigh, removing ONE present at a time place them beneath the tree. He must stack the presents, 3 on bottom, 2 on the next level, and finally 1 on top. SECOND, Santa will then proceed to give 3 baby carrots or apple slices to each of the reindeer to eat. They must have all carrots swallowed before Santa can leave the reindeer. THIRD, Santa will head to the plate of two plain

sugar cookies and must eat and swallow completely before continuing. When done with cookies Santa may re-enter the sleigh!!!!

Phase #3- “Return to the North Pole “ – Reindeer will then dash Santa back to the North Pole. Once they come to a complete stop, in designated area, Santa must FIRST exit the sleigh, give each Elf one high five and two hip bumps and then return his bag to the elves work bench. Elves will stay in designated areas until bag is on work bench. SECOND, after bag is returned to work bench, elves will then fetch the reindeer (one each) and return them to their stalls. Once reindeer are returned, elves must each ring the sleigh bells to complete the journey!!! Good luck!!!!

## Important Notes!!!

- Santa cannot weigh over 150lbs.
- You are expected to Dress the part!!! At least to some extent. The quality of your costumes will be judged as well!!! There will be a prize for best costumes!! Let your Christmas spirit shine in your outfits, but make sure you don't jeopardize your safety by over doing it LOL!!!

- You will be timed. Fastest time wins. Prizes will be awarded.
- All “reindeer” must have at least one hand on the sleigh in order for it to move.
- Attached is an image of Santa’s “sleigh”, a detailed breakdown of rules, and a diagram of the course.

This has 400lbs capacity. 48 inches long x 30 inches wide.  
We will modify these carts with appropriate padding and safety improvements to ensure Santa's well-being. Safety helmets are available if Santa and/or reindeer would like to wear one.

## Rules: Detailed

### Phase 1 "The Work Shop "-

- 1) Each elf will load 3 presents into Santas bag. Together they will then carry the bag to the sled and place bag in sled.
- 2) Both elves will return to the work bench and grab a set of bells and ring them to let Santa know he can head to the sled and board it.
- 3) While Santa is boarding elves will head to the reindeer in their stalls. Each elf will grab one reindeer and walk them to either side of the sleigh.
- 4) After escorting the reindeer, elves return to the work bench, and after both elves ring their bells then reindeer can take flight!

## Phase 2 "The delivery dash"

- 1) Reindeer will sprint down the course while pulling the sleigh, go around the Xmas tree and come to stop in designated area.
- 2) While keeping bad in sleigh, Santa will remove presents one at a time and stack in front of the Xmas tree, three on bottom, two on second level, and one on top!
- 3) Once presents are stacked and balanced Santa will grab carrots/apples located at base of tree and give to reindeer to eat. There will be one bag for each reindeer. Santa will stay by reindeer until a judge says all carrots/apples are eaten and he may proceed.
- 4) Santa will then head to plate of cookies and completely eat both. Again judge will give the okay to proceed.

- 5) Santa will enter the sleigh and when safely situated the reindeer take off for the return to the North Pole.

### Phase 3 "Return to the North Pole"

- 1) Reindeer must come to complete stop in designated area. The two elves will be waiting for Santa in designated areas. He will give each elf a high five and two hip bumps. Santa will then grab his bag from sleigh and return it to the work bench.
- 2) After the bag is on the workbench elves can then fetch the reindeer from the sleigh, one each, and take them to the stalls. Once reindeer are returned, each elf must return to work bench and ring a set of sleigh bells to complete the journey!!
